### **Allergy Advice:**

**If you suffer from a food allergy or intolerance, please let your server know upon placing your order.**

Every care is taken to avoid any cross contamination when processing a specific allergen free order. We do however work in a kitchen that processes allergenic ingredients and do not have a specific allergen free zone. Wheat and gluten ingredients which are deep fried will use the same fryers in our kitchens as dishes not containing these ingredients - there may be risk of cross contamination which may therefore affect extremely sensitive sufferers. Allergen data is held on each of our dish ingredients, so please ask your server in the restaurant should you require any more details.
